Methodology

The assessment employs a six-point interval scale to evaluate your church's performance measured against 55 best-practice statements. Each statement requires a response ranging from "Strongly Disagree" to "Strongly Agree". Participants may also choose a "Don't Know" or "Not Applicable" response. Responses from all participants are aggregated resulting in performance mean scores.

The Results & Key Findings report is designed to reflect:

1. **Priorities:** The areas the senior team views to have the most impact on business performance.
2. **Performance:** The team's perception of the church's current performance in the categories of Strategy, Design, and Culture.
3. **Comparison:** How the church compares to other organizations in the QuadRed database.
4. **Consensus:** The level of agreement or disagreement that exists among the senior team regarding performance in key areas.

How to Use this Report

1. Review the Executive Summary and Degree of Impact Summary pages to understand:
 - How the senior team prioritized each of the business areas.
 - How they rated their respective performance.
2. Review the comparison charts to get a sense of where this church's performance lies in relation to other organizations.
3. Use the Detail Results to see how participants individually rated performance of the high-impact areas. Is there consensus or polarity?
4. Use this information to prioritize key performance improvement goals and to develop and execute an action plan.
5. Take the assessment again in approximately 6 to 12 months to compare results in targeted improvement areas.

Notice: This report reflects the views and opinions of the individuals that have completed the QuadStrat® assessment. The information contained within this report does not imply, direct, or recommend specific actions to be taken on the part of the assessment respondents or the company or firm they represent. It is recommended that you utilize the skills of a certified consultant to facilitate the process.

EXECUTIVE SUMMARY

Area of Focus

This report plots the Principal Elements of the Organization. The vertical axis represents the performance mean score and the horizontal axis represents the order of priority, with the highest priority to the right. The Priorities table reflects the Principal Elements in order of weighted priority, as determined by the group, and indicates the performance mean score.
